

## Stream Box S2 Ultra

**„It will satisfy the most demanding music lovers without loss of quality.“**

The Pro-Ject Stream Box S2 Ultra will upgrade your existing hifi set with an entire menu with choices to **listen to digital music in at very high level**. It offers a lot of streaming options: you can stream music from your NAS or via Spotify and Tidal platform.

Very interesting also are all those little extras for undermining audiophiles such as the possibility to rip cd's or to expand the software with plugins.

The Stream Box S2 Ultra will **satisfy the most demanding music lovers** who would like to add streaming function to their audio system **without loss of quality**.
